

FROM THE DESK OF WILLARD & BETTY

To Our Dear Friends:

Our Location

We just want to take a few moments of your time to tell you of changes and growth to New Day Ministries. Our ministry centre at 1111 Chevrier Blvd. In Winnipeg has been used mightily by God for the last fifteen years and we are thankful for that provision! However, we believe that to be the best stewards of the resources entrusted to us means moving to a smaller, highly efficient facility.

Our building has been for sale, and we thought that the deal would close before the end of last year bringing relief to the heavy mortgage we carry. However, this has been delayed and as a result we are very tight financially and have come up short of our budget in recent months. We believe God for a Miracle Month this March. We also hope to close on the sale of our building this summer.

Our Leadership

Bob and Audrey have been fighting for families on It's A New Day and traveling in Canada and internationally, speaking at conferences, bringing a message of hope for marriages to combat the enemy's attack. They have been used by the Lord to help many of our brothers and sisters in leadership who are in the midst of moral crisis! As God has used others to help and heal Bob and Audrey's family, they are now being used to help others.

We are proud of them as their parents and as co-founders of this ministry, for their selfless dedication as they labor to fight for marriages and families. Now in his third year as president, Bob brings the leadership necessary for the future with great passion and foresight.

Our Message

Yesterday we received two emails that 'bookend' the effectiveness of the ministry during these last 33 years.

"Today marks my Spiritual Birth day. In 1978, as a young mother of three boys, I knelt down in my living room and prayed receiving Jesus into my heart, as Willard and Betty explained the way of salvation. I thank God for you and your family!"

"Dear Bob & Audrey; First I want to say I love you both and God is using you mightily. I have started off on the wrong foot in 2010 but yesterday I recommitted my life to Jesus and I need your prayers."

Our Future

We want you to partner with our vision. Just as you have been helped and encouraged in your faith as we've brought relevant teaching and powerful guests to you in your times of need. We know that you want to invest in others as well. That is why we now openly share with you that the financial need of this ministry is great.

Together we can reach millions with the only message of God's hope: Grace and covenant through Jesus Christ. We want to help others discover their heavenly Father, His love for them and His gift of life.

Our future challenge is updating all of our television equipment. For the past fifteen years we have added or fixed equipment but it does not line up to the requirements submitted in the new digital age. We believe God for the finances to update the equipment as needed.

Our international audience has grown through the Internet, and we are excited about the future. We believe that people are spiritually hungry and are looking for truth.

March is the month that can make a huge difference financially for the remainder of the year. If each of you would give \$30, \$50 or \$100 as an extra gift in addition to partnering with us on a monthly basis we know that together we can eliminate the deficit, expand and grow. Thank you for praying for us and giving generously to the ministry of It's A New Day.

Love in Jesus,

Willard & Betty
